THE House of Representatives of Mas sachusetts have defeated a resolution providing for an amendment to the Constitution conferring the right of suffrage upon women in that State; and the Senate, at the same time, rejected a bill to regulate the hours of labor in factories. South Carolina held at Charleston, the fact was brought out that the number of offices, both State and County, have been unnecessarily increased, and the salaries appertaining to the same have been fixed at amounts largely in excess of a fair compensation for the services rendered; and that as to those offices absolutely necessary to a due administration of the State Government, the salaries have in like manner been inordinately increased. A comparative statement submitted to the Convention, shows that the salaries late such as it was cunning enough to of the State officers in 1866, including the expenses of the Legislature, and the Contingent Fond, amounted to \$123,500, while the same for 1871 foots up \$580,950. This shows an increase in the expenses of the State amounting to \$457,450. The expenses of the counties show a corresponding increase. Of course these increased burdens have to be met by the tax-payers. The process by which they

are made to do this is explained in a pri-
